Dear Sirs/Madam,

1. Obligations and Responsibilities of the Parties

1.1 Obligations and Responsibilities of the Audit Firm:

Our audits of the Organization's Financial Statements ending on 31 December 2016 were conducted in accordance with International Standards on Auditing ("ISA"),

We will plan and perform our audits to obtain reasonable assurance about whether the Financial Statements are free of material misstatement, whether caused by error or fraud. However, because of the characteristics of fraud, a properly planned and performed audit may not detect a material misstatement. Therefore, an audit conducted in accordance with ISA is designed to obtain reasonable, rather than absolute, assurance that the Financial Statements are free of material misstatement. An audit is not designed to detect error or fraud that is immaterial to the Financial Statements.

An audit includes obtaining an understanding of internal control sufficient to plan the audit and to determine the nature, timing, and extent of audit procedures to be performed. An audit is not designed to provide assurance on internal control or to identify reportable conditions.

Our ability to express the opinions and the wording of our opinions will, of course, be dependent on the facts and circumstances at the dates of our reports. If, for any reason, we are unable to complete the audits or are unable to form or have not formed the opinions, we may decline to express the opinions or decline to issue the reports as a result of this engagement. If we are unable to complete our audits or if our auditors' reports require modification, the reasons therefore will be discussed with the Audit Committee, if applicable, and the Organization's management.

1.2 Obligations and Responsibilities of the Organization:

The preparation of the Organization's Financial Statements based on its policies and regulations is the responsibility of the Organization's management.

In this regard, among other things, management is responsible for: (1) establishing and maintaining effective internal control over the preparation rules; (2) identifying and ensuring that the Organization complies with the laws and regulations applicable to its activities and informing us of any known material violations of such laws or regulations; (3) properly recording transactions in the accounting records; (4) adjusting the Financial Statements to correct material misstatements;

Additionally, management is responsible for the design and implementation of programs and controls to prevent and detect fraud and for informing about all known or suspected fraud affecting the Organization involving: (1) management, (2) employees who have significant role in internal control, and (3) others where the fraud could have a material effect on the Financial Statements. Management is also responsible for informing us of its knowledge of any allegations of fraud or suspected fraud affecting the Organization received in communications from employees, former employees, or others.

We will make specific inquiries of the Organization's management a bout the representations embodied in the Financial Statements. As part of our audit procedures, we will request that management provide us with representation letter acknowledging management's r esponsibility for the preparation of the Financial Statements confirming certain representations made to us during our audit. The responses to those inquiries and related written representations of management required by ISA are part of the evidential matter that we will rely on as auditors in forming our opinion on the Organization's Procurement

2. Opinion

In our opinion, considering only the Financial Statements we assessed, analyzing them in general and in every material aspect in our opinion we can express that the financial Statements of Albanian Helsinki Committee ending on December 31, 2016 show a true and fair view of its financial position.

2.4.2. Selecting Expenditure Items

Value is the primary factor used by us to select expenditure items or classes of expenditure items for verification. We have verified all expenditure items which we believed would have a material impact for expressing an opinion over the financial statements of Albanian Helsinki Committee.

2.5. Verification of Expenditure

The expenditure items were verified by testing for the criteria set out below.

2.5.1. Eligibility of Direct Costs

We have verified the eligibility of direct costs if:

- are necessary for carrying out the action. In other words, we have verified that expenditure for a transaction or action has been incurred for the intended purpose of the action and that is has been necessary for the activities and objectives of the action. We have further verified that the direct costs are provided for in the Grant Contract Budgets and comply with the principles of sound financial management, in particular value for money and cost effectiveness;
- are recorded in the accounts of the AHC and are identifiable, verifiable and substantiated by originals of supporting evidence.

We also considered non-eligible costs as described in each Contract. In this respect we verified in particular whether expenditure includes certain taxes, including VAT. Where this was the case, we verified whether the Beneficiary (or, where applicable the partners) cannot reclaim these taxes and whether the applicable regulations, rules and practices in the country concerned allow the coverage of these taxes in the expenditure. No non-eligible costs were identified.

2.5.2. Accuracy and recording

We have verified that expenditure for a transaction or action has been accurately and properly recorded in the AHC's accounting system and the Financial Statements and that it is supported by appropriate evidence and supporting documents. This includes proper valuation and the use of correct exchange rates.

2.5.3. Classification

We have verified that the expenditure for a transaction or action has been classified under the correct heading and subheading of the Financial

2.5.4. Reality (Occurrence / existence)

We have exercised professional judgment to obtain sufficient appropriate verification evidence as to whether the expenditure has occurred (reality and quality of the expenditure) and - where applicable - assets exist. We verified the reality and quality of the expenditure for a transaction or action by examining proof of work done, goods received or services rendered on a timely basis, at acceptable and agreed quality and at reasonable prices or costs.

2.5.5. Compliance with procurement, nationality and origin rules

We have examined which procurement, nationality and origin rules apply for a certain expenditure heading, subheading, a class of expenditure items or an expenditure item. We have verified whether the AHC has complied with such rules and whether the expenditure concerned is eligible.

2.5.6. Administrative (indirect) costs
